ORAL PRESENTATIONS

CTF: The Fundamentals <i>J.N. Tullberg, CTF Solutions and University of Queensland, Gatton</i>	1
On Tracks at Dookie <i>Mark Harmer, Dookie, Victoria</i>	5
A 20 Year Journey from Conventional Farming to Controlled Traffic <i>St John Kent, Farmer, Jimbour QLD</i>	7
CTF – Positive perspectives in the Border Rivers Gwydir Catchment, NSW <i>Brooke Phelps and Jennie Spenceley, Conservation Farmers Inc.</i>	8
Harnessing Interactions between Plant Roots and Soil Biology in Undisturbed Soil <i>Michelle Watt and John Kirkegaard, CSIRO Plant Industry, GPO Box 1600, Canberra 2601</i>	9
The Progression of CTF Systems on the Liverpool Plains <i>Ian Carter, “Connamara”, Quirindi, NSW</i>	13
Soils: The Key Focus in Controlled Traffic Farming <i>Renick Peries, Department of Primary Industries, P O Box 103, Geelong 3220, Australia</i>	15
CT Farming Patchewollock <i>Peter Walch</i>	20
Developing Raised Beds in SW Victoria <i>Colin Hacking</i>	22
Controlled Traffic Farming takes Conservation Agriculture into China <i>A.D. McHugh¹, Li Hongwen² and J.N. Tullberg³ 1. School of Agronomy and Horticulture, University of Queensland, Gatton Campus, Gatton; 2. Department of Agricultural Mechanisation, China Agricultural University, Beijing; 3. CTF Solutions, 56 Iona Terrace, Taringa, Brisbane</i>	28
Murdeduke - Raised Beds and CTF <i>Lachie Wilson</i>	34
Raised Beds to Add Profitability <i>Kellie Shields, “Gunwarrie”, RMB 210, Frankland 6396</i>	38
Precision Agriculture on Farm and SPAA <i>Malcolm Sargent, “Brook Park”, Crystal Brook, S.A.</i>	41
Farming at “Llanthro” <i>Ryan Millgate, “Llanthro”, South Australia</i>	43
Making Money out of Zonal Management <i>Adam Inchbold on behalf of PA Project Team (listed at end of paper), Riverine Plains Inc.</i>	45
Opportunities and Strategies - The Big Picture <i>Don Yule, CTF Solutions, Queensland</i>	53

Professional Farm System Design: Planning and Implementation of Practicing Controlled Traffic Farming <i>Stewart Cannon, Rural Property Design, Gowrie Junction, QLD</i>	59
Planning and Implementing Controlled Traffic Farming <i>Neale Postlethwaite, St Arnaud, Victoria</i>	62
Adopting Controlled Traffic Farming <i>Warwick Holding, NSW</i>	65
Controlled Traffic Part of the System <i>Mark Wandel, Willawayup, Scaddan, WA.</i>	68
Machinery Standards for CTF – Pipe Dream or Logical Necessity <i>Wayne Chapman, CTF Solutions, Taroom, QLD</i>	71
Driving Straight – Get Over It! <i>Hugh Ball, NSW</i>	75
From Cultivation to No-till to Tramline Farming <i>Owen Brownley, Lake King, WA.</i>	76
CT for the Vegetable Industry – What will it take? <i>John McPhee, Department of Primary Industries and Water, Devonport, Tasmania</i>	79
Controlled Traffic Farming Systems in the Mackay Sugar Industry <i>Brad Hussey</i>	84
Delivery of Networked GPS Corrections for Machinery Guidance <i>J.C. Millner¹, H.J. Asmussen¹ and R. Andreola², ¹ Spatial Information Infrastructure, Department of Sustainability and Environment, Melbourne, Vic., ² School of Mathematical & Geospatial Science, RMIT University, Melbourne, Vic.</i>	86
Applications for 2 cm Autosteer <i>Matt McCallum, Ag. Consulting Co., Ardrossan</i>	99
Advanced Cropping Systems with Controlled Traffic. A Nuffield Scholar’s Experience <i>Mark Branson, B.AppSc (Agric) NSch – Farmer</i>	101
Satellite Imagery and Yield Mapping on CTF farms – What’s Next? <i>Tim Neale, Director, CTF Solutions, P.O.Box 1088, Dalby 4405</i>	105
 POSTER PRESENTATIONS	
Uses of Satellite Imagery in Controlled Traffic Farming <i>Shona Chisholm, Geoimage Pty Ltd</i>	109
Managing Rough and Deep Controlled Traffic Tracks in Southern Queensland and Northern NSW <i>Brooke Phelps, Conservation Farmers Inc</i>	110
 INDEX OF AUTHORS	 111
