TABLE OF CONTENTS

High Resolution Multi-spectral Imagery **1**
Jim Baily, AirAgronomics

Adopting Controlled Traffic on an Average-sized Property in an Economically Rational Way **7**
Wes Baker[1] and Paul Blackwell[2], [1]Corrigan WA, [2]Department of Agricultural and Food Geraldton, WA

Yield Limiting Factors in Relation to Precision Agriculture along the South Coast of WA **10**
Derk Bakker[1], Grey Poulish[1] and Dan Murphy[2], [1]Department of Agriculture and Food Western Australia, Albany, [2]University of Western Australia, Perth

Development of Controlled Traffic in WA and Future Directions Integrated with Precision Agriculture **16**
Paul Blackwell, Senior Research Officer, Department of Agriculture and Food, Geraldton Regional Office

The Use and Effects of Controlled Traffic Farming **23**
Jacob Bolson and Amy Kaleita, Dept. Agricultural & Biosystems Engineering, Iowa State University

Does the Direction of In-Field Controlled Traffic Affect Runoff, Erosion And Crop Yield? **37**
M.V. Braunack[1], B.C. Lynch[1] and S. Neilsen[2], [1]Qld Dept Primary Industries and Fisheries, LMB 6, Emerald, Qld 4720; [2] Qld Dept Natural Resources and Water, PO Box 19, Emerald, Qld 4720 Australia

Demystifying Guidance - Steering a Straight Line through the Hype **43**
Wayne Chapman and Tim Neale, CTF Solutions

Wheeltracks and Widths **48**
Wayne Chapman, CTF Solutions

Controlled Traffic Farming in Central Queensland **53**
Colin Dunne, Sorrell Hills Cattle, Duaringa Qld

Variable Rate Application and Controlled Traffic at Cunderdin, Western Australia **56**
David Fulwood, Cunderdin, Western Australia

Impact of Controlled Traffic Raised Beds on our Property: "STRUAN" – in High Rainfall South West Victoria **60**
Cam Gibson, camandcara@hotmail.com

Variable Rate Technology – *Points to Consider in the Workshop in Data Collection, Interpretation and Translation to Practices* **63**
David Hall, Senior Research Officer, DAFWA, Esperance, WA

Using Controlled Traffic to Engineer Seedbeds for Increased Water Conservation, Crop Production and Profit **64**
Greg Hamilton[1], Jessica Sheppard[2] and Rod Bowey[1], [1]Department of Agriculture and Food and [2]Avon Catchment Council

Leighview **74**
Stewart Hamilton

A New Farming System for the Sugar Industry **75**
Brad Hussey, BSES Limited, Mackay

Accurate Data Management for Precision Agriculture **76**
Doug Jeans, Rinex Technology

The Journey is Great, but does PA Pay? **82**
Garren Knell, ConsultAg, Alison Slade, DAFWA, CFIG

Electromagnetic Soil Mapping – Implementing the Outcomes **89**
Quenten Knight, Consulting Agronomist, Precision Agronomics Australia, Esperance WA

Precision Farming with Machinery and in the Farm Office **95**
James Lang, AGCO

How Responsive is my Paddock? **98**
Roger Lawes[1], Yvette Oliver, Michael Robertson, Trevor Parker
CSIRO Sustainable Ecosystems, [1]CSIRO Sustainable Ecosystems, CELS Floreat, Underwood Avenue, Floreat, WA

Yield Maps - More than just Pretty Pictures? Does Soil Depth Explain Spatial Variability of Yield on a Central Queensland Black Vertisol? **103**
B.C. Lynch [1] and C.P. Dougall [2], [1]Qld Dept Primary Industries and Fisheries, LMB 6, Emerald, Qld 4720, [2]Qld Dept Natural Resources and Water, PO Box 19, Emerald, Qld 4720

Farmer Trials and Experience Prove the Adoption of Precision Agriculture Technologies is Profitable in Western Australia (WA) **110**
I.R. Maling[1], M. Adams[2], M. Robertson[3], B. Isbister[4], W.J. Bowden[5]
[1]Silverfox Solutions 1B/1 Sarich Way Technology Park Western Australia 6102, [2]Department of Land Information 65Brockway Rd. Floreat WA 6014,[3]Commonwealth Scientific and Industrial Research Organisation (CSIRO) PMB 5, PO Wembley, Western Australia 6913, [4]Department of Agriculture and Food Western Australia (DAFWA) 20 Gregory St, Geraldton 6530, [5]DAFWA 2 York Road Northam WA, 6401

Multiple Benefits from Inter-row Sowing with 2cm RTK GPS **118**
Matthew McCallum, McCallum Agribusiness Consulting, Ardrossan SA

Farmer Case Studies on the Economics of PA Technologies **122**
Matthew McCallum, McCallum Agribusiness Consulting, Ardrossan SA

Addressing the Challenges of CTF for the Vegetable Industry **128**
John McPhee[1] and Peter Aird[2], [1] Tasmanian Institute of Agricultural Research, Devonport, Tasmania, [2]Serve-Ag Pty. Ltd., Devonport, Tasmania

Networked RTK using the Internet for Controlled Traffic Farming **135**
James C. Millner[1], Hayden Asmussen[1], Jacqueline Denham[1], Martin Hale[1], Jeremy White[2], Don Yule[3], [1]Department of Sustainability and Environment (DSE), Melbourne, Victoria, [2]Department of Primary Industries (DPI) Ballarat, Victoria, [3]CTF Solutions, 56 Iona Tce Taringa, QLD 4068

Using CTF as the Basis for Novel Farming Systems – Improved Nitrogen Utilization As a Case in Point **142**
Clay Mitchell, The Mitchell Farm, Iowa, USA

A High Quality CORS Network for WA **153**
Linda Morgan, Landgate, Perth, Western Australia

Precision Agriculture for CTF farms **156**
Tim Neale and Wayne Chapman. Directors, CTF Solutions, P.O.Box 1088, Dalby 4405

Getting the Most Out of your Spatial Data **161**
Yvette Oliver[1], Michael Robertson[1], Bindi Isbister[2], Ian Maling[3]
[1]CSIRO Sustainable Ecosystems, [2]DAFWA , [3]Silverfox solutions

OmniSTAR leads CORS Network High Performance Positioning Study for Greater Accuracy **168**
Rosanne Pacecca

Controlled Traffic Delivers Soil Structure Benefits at Depth in Cracking Clay Soils **169**
Renick Peries and Chris Bluett, Department of Primary Industries, Geelong. Vic 3220

Chemical and Non-chemical Weed Control Opportunities in CTF – A European Experience **174**
Glen Riethmuller, Department of Agriculture and Food Western Australia, Merredin

The Economic Benefits of Precision Agriculture: Case Studies from Australian Grain Farms **181**
Michael Robertson, Peter Carberry and Lisa Brennan, CSIRO Sustainable Ecosystems

Remote Sensing Applications in Peanuts: the Assessment of Crop Maturity, Yield, Disease, Irrigation Efficency and Best Management Practices using Temporal Images **188**
Andrew Robson[1, 2], Graeme Wright[1] and Stuart Phinn[2], [1] Queensland Department of Primary Industries and Fisheries, Plant Sciences, J. Bjelke Petersen Research Station, PO Box 23, Kingaroy, Qld 4610, [2]University of Queensland, Centre of Remote Sensing and Spatial Information Science, School of Geography, Planning and Architecture. Brisbane, Qld 4072.

Does Controlled Traffic Have a Place in High Rainfall, Undulating and Difficult Environments? **197**
J. Russell[1], J. Fisher[2], R. Murray-Prior[2], D. Pritchard[2], E. Henson[2], J. Eaton[2], and M. Ashworth[3], [1]Department of Agriculture and Food, WA; [2]Muresk Institute, Curtin University of Technology; [3]Western Australian No-Till Farmers Association, Northam.

A Manufacturer's Perspective on Commercialising Technologies **205**
Anthony Ryan, AGCO Australia, Melbourne

Seeking Profitability **207**
Simon Tiller

Why Controlled Traffic Farming? **209**
J.N. Tullberg, CTF Solutions

CTF and Global Warming **214**
J.N. Tullberg, CTF Solutions

CT Farming Patchewollock **217**
Peter Walch

Controlled Traffic and Precision Agriculture at Scaddan, Western Australia **219**
Mark Wandel, Willawayup, Scaddan, WA

Applying PA Techniques for Better Decisions **224**
Michael Wells, Precision Cropping Technologies

Management of Overland Flow in CT Systems in the Northern Agricultural Region, W.A. **231**
Peter Whale, Lyle Mildenhall and Paul Blackwell. Department of Agriculture and Food Western Australia, Three Springs and Geraldton Offices

Factors Affecting the Tracking Performance of Implements **237**
Brendan Williams, GPS-Ag Pty Ltd

CTF and PA Tools – the Perfect Match **241**
Don Yule and the CTF Solutions Team
