

## TABLE OF CONTENTS

<i>Controlled traffic - soil management opportunities</i>	1
Spoor, G.	
<i>Controlled traffic in Australia</i>	7
Tullberg, J.N.	
<i>Controlled traffic for broadacre dryland farming: better than sliced bread</i>	12
Yule, D.F.	
<i>Permanent beds: the Riverina version of controlled traffic</i>	18
Maynard, M.J.	
<i>Irrigated cropping on permanent raised beds in Southern New South Wales</i>	21
Thompson, J.A.	
<i>Specific design limits for Tatura permanent beds</i>	25
Adem, H.H.	
<i>Effective production and marketing of irrigated grain crops using permanent beds</i>	30
Russell, K.	
<i>Vision-guidance of agricultural vehicles</i>	33
Billingsley, J. and Schoenfish, M.	
<i>An analysis of different permanent bed and wheel track configurations in cotton growing</i>	39
Bakker, D.M., Harris, H., and Wong, K.Y.	
<i>Development of commercial machinery and the farm</i>	46
Trevilyan, D.	
<i>Why hi-tech no-tillage is inevitable</i>	50
Baker, C.J.	
<i>Equipment industry implications of control traffic</i>	55
Thomas, J.B.	
<i>The value of track-type tractors in agriculture</i>	59
Janzen, D.C.	
<i>Controlled traffic - the potential for precision</i>	65
Murray, J.R and Tullberg, J.N.	
<i>Six years of controlled traffic cropping research on a red brown earth at Roseworthy in South Australia</i>	69
Sedaghatpour, S., Ellis, T. and Bellotti, B	
<i>Effects of compaction on crop establishment, growth and yield on an alluvial soil in Central Queensland</i>	76
Radford, B.J., Yule, D.F., Wilson-Rummenie, A.C. and Key, A.J.	
<i>Soil and crop responses to compaction by rubber tyres on a cracking clay in Central Queensland</i>	82
Rhode, K.W. and Yule, D.F.	
<i>Measuring the variation of soil mechanical properties with treatment and time in a compaction control and repair experiment</i>	88
Davis, R.J. and Harris, H.D.	
<i>A comparison of the impact of 14 years of conventional and no-till cultivation on physical properties and crop yields of a loam soil at Grafton NSW</i>	97
Grabski, A.S., So, H.B., Schafer, B.M. and Desborough P.J.	
<i>Wheeltrack compaction effects on runoff, infiltration and crop yield</i>	103
Ziebarth, P.D., Tullberg, J.N.	

<i>The economics of controlled traffic: South Burnett case study</i>	
Mason, R.M., Page, J.R., Tullberg, J.N. and Buttsworth, R.K.	109
<i>Controlled traffic development on dryland broadacre farms in Central Queensland</i>	
Chapman, W.P., Spackman, G.B., Yule, D.F. and Cannon, R.S.	115
<i>Traffic and cost reductions under broadacre controlled traffic</i>	
Robotham, B.G. and Walsh, P.A.	123
<i>Land management systems including controlled traffic, erosion control and crop rotations for dryland cotton</i>	
Rhode, K.W. and Yule, D.F.	131
<i>Tractor wheel compaction effects on infiltration and erosion under rain</i>	
Silburn, D.M., Titmarsh, G.W., Wockner, G.H. and Glanville, S.F.	138
<i>Making controlled traffic work in non-parallel contour banks</i>	
Mason, R.M., Titmarsh, G.W. and Sallaway, M.M.	145
<i>Parallel strip cropping between nonparallel contour banks</i>	
Carey, B.W.	151
<i>On-farm controlled traffic systems for improving benefits of deep tillage with broadacre cropping in WA; with comments on choice of traction systems and application to no-tillage</i>	
Blackwell, P.S., Vlahov, V. and Malcolm, G.	153
<i>Controlling the research traffic</i>	
Price, R.	159
<i>Controlled traffic for irrigated row crops in the semi-arid tropics</i>	
McPhee, J.E., Braunack, M.V. and Garside, A.L.	166
<i>Controlled traffic: an integral part of a new rice cropping system for the dry tropics.</i>	
Ockerby, S.E. and Punter, L.D.	172
<i>SOILpak - a decision support system for extending controlled traffic information to irrigated cotton growers</i>	
McKenzie, D.C. and Anthony, D.T.W.	176
<i>Compaction: Seizing the Problem</i>	
Anthony, D.T.W.	182
<i>Mathematical modelling of soil characteristics and changes effected by compaction.</i>	
Alam, J., Wasimi, S.A., Sibley, J.W. and Yule, D.F.	185
<i>Measuring soil stresses and deformations during sugar cane harvesting</i>	
Conway, D. and Porter M.	191
<i>Compaction on vertisols: Can it be predicted.</i>	
Kirchhof, G. and So, H.B.	196

## POSTER PAPERS

<i>Controlled traffic for sugarcane</i>	
Braunack, M.V. and Hurney, A.P.	202
<i>Low cost controlled traffic for protection of soil structure with current farm equipment</i>	
Blackwell, P., Vlahov, V., Malcolm, G. and Baxter, R.	207
<i>Control traffic works!</i>	
McGarry, D., Pillai-McGarry, U.P. and Bray, S.G.	207
<i>Author Index</i>	208
